

Bio-diversity, Wildlife Conservation and Management

Invitation

It is matter of great pleasure to invite you to attend a National seminar on "Biodiversity, Wildlife conservation and Management" being organized by Department of Zoology & Biotechnology, Govt. Home Science PG College, Hoshangabad (M.P.) on 27th February, 2019. All the academicians, researchers, industrialists, professionals and students, interested in the focal theme of the seminar are invited to participate and present papers (Oral/Poster) in the seminar.

About the Institution

Government Home Science Post Graduate College is a Lead College of Hoshangabad District. Situated at the bank of The Holy River Narmada, between beautiful Satpura and Vindhyanal range of Madhya Pradesh. Hoshangabad is very easy to reach, both road and train transport facility are available. It is 75 kilometer from Capital Bhopal and 18 kilometers from Itarsi Junction. Nearest Airport is Raja Bhoj International Airport Bhopal. College is less than one kilometer from Railway Station and Bus stand.

About Seminar

The population of wild life continues to dwindle in almost all states. Madhya Pradesh which was once famous for its forest and wild life, is no exception this loss of natural heritage in large scale has become a concern for all, as wild life not only balances the ecosystem but also serves for the economic development of the country. The present seminar attempts to assess the status of wild animals of the state and the efforts made by the Government for their protection and conservation. The present seminar also aims to find strategies for conservation under changing environment.

Madhya Pradesh is the second largest state of India and the home state of famous white tiger falls under the sub region, the peninsular India, it possesses both tropical moist

and tropical dry deciduous forest with shrub and honey vegetation. Because of the large forest area. The state is endowed with variety of wild fauna, population structure of wild life of the state is also quite encouraging.

In conclusion, it can be said that inspire of all the protective measures wild life management in the state is far from satisfactory. A strategy, Development without destruction is needed to be evolved. Let us not forget that it a species becomes extinct, it cannot be recovered and is lost forever. Every species plays an important role at its place in maintaining the balance of eco system. So we must try to conserve the wild life at every cost

Sub Themes

1. Historical aspect of Bio-diversity & environmental protection act.
2. Causes for the loss of Bio-diversity & impact of development activity
3. Conservation of wild life
4. Role of Biotechnology in conservation of Bio-diversity.
5. Animal Bio-diversity of Madhya Pradesh.
6. Wild life and forest conservation.
7. Wild life conservation and you.
8. Legal framework for conservation advocacy.
9. Livestock Bio-diversity.
10. Level of Bio-diversity in India and regional perspective.
11. Other topics related to theme will also be accepted.
12. Role of information technology in bio-diversity or wild life conservation.
13. Environmental education
14. Conservation of critically endangered vulture
15. Global wild life conservation
16. Green India greening Madhya pradesh

Call for Papers/Poster Presentation

Participants should send their Abstracts and papers in Times New Roman 12 font in English and Krutidev 14 font size in Hindi in MS word by February 23, 2019. The duration of Oral Presentation will be 7 minute.

Papers will be published in Shodh Samagra the Research Journal with ISSN No. 2395-2725, Rupees 500 will be charged extra for publication

For Poster Presentation, the size of poster should be 75 cm X 1 meter. Full length paper can be submitted before 25 February 2019. Please write Subject- (Abstract/Paper for NSB2019)

National Seminar On Bio-Diversity Wildlife Conservation and Management

Registration Form

Name

Designation.....

Name of the institution with address.....

Sex Nationality.....

Address for communication.....

Contact No
